

To Whom It May Concern,

Dear Sir or Madam,

I am pleased to write this letter of recommendation for Amogh Lonare, who served as a Business Consultant at Blackmont Consulting under my supervision from April to June 2026.

During this period, Amogh played an active role in a live client engagement, contributing to key elements of the consulting workflow - including market research, competitive benchmarking, and the synthesis of data-driven insights. Their work supported the formulation of strategic recommendations aligned with the client's business objectives.

In addition to technical contributions, Amogh was instrumental in preparing client-facing deliverables such as data quality assessments and insight presentations, helping ensure clarity, structure, and impact. Their work demonstrated strong analytical thinking, attention to detail, and a clear understanding of core consulting frameworks.

Throughout the internship, Amogh consistently exhibited a high level of motivation, professionalism, and accountability. Their ability to work collaboratively in a virtual environment, coupled with excellent communication and time management skills, significantly enhanced team efficiency and morale.

The quality of Amogh's contributions regularly exceeded expectations for an early-career professional, and I am confident that they will continue to excel in future roles within the consulting industry or any other business context requiring analytical rigor and stakeholder communication.

I recommend Amogh without reservation and would be happy to provide additional insights into their performance and capabilities if required.

Sincerely,

Shubham Verma
Project Manager
